Latest Project 01

Apex DCB App, an advanced financial app that makes digital banking and financial management seamless for users. With a focus on security and usability, Apex DCB enables easy transactions, real-time account monitoring, bill payments, and personalized financial planning. Our goal was to create a secure and intuitive platform that empowers individuals and businesses to manage their finances efficiently, anytime and anywhere.

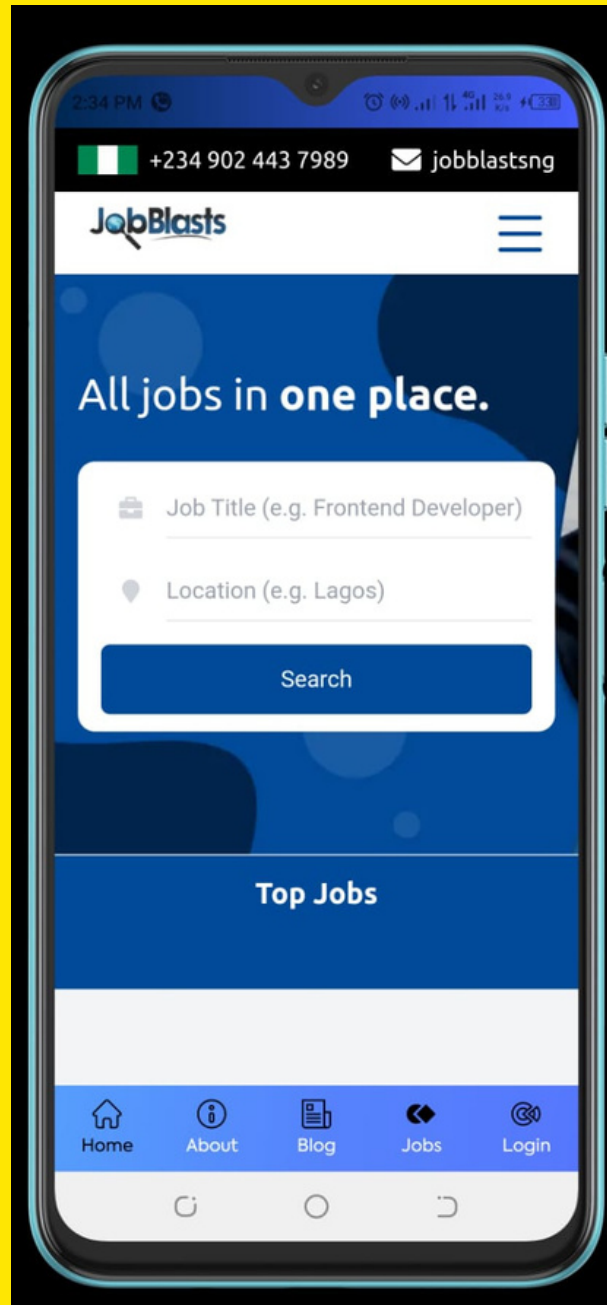

check it out Here... <https://apexdcb.com/>

Latest Project

We built a comprehensive health insurance app for the **Oyo State Health Insurance Agency (OYSHIA)** to enhance access to healthcare services for residents. This user-friendly app allows individuals to easily enroll in health insurance plans, check coverage details, and access a network of healthcare providers. With features like claims submission, appointment scheduling, and real-time notifications, the app empowers users to manage their health and insurance needs efficiently. **Check it out here**.... oyshia.oy.gov.ng

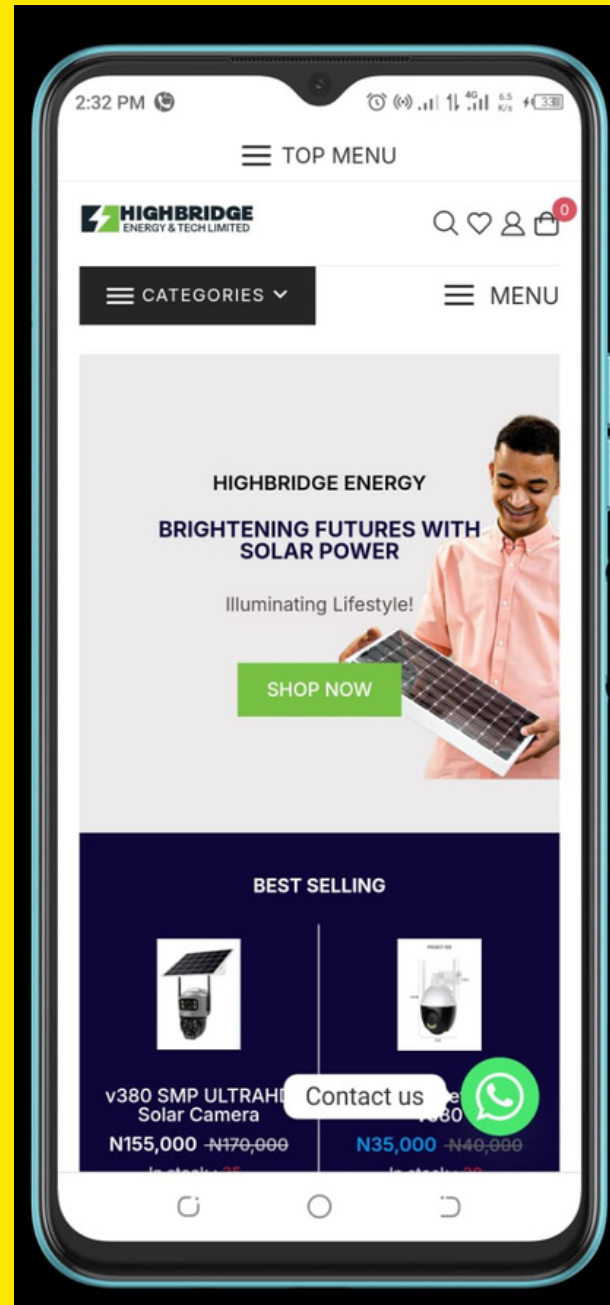

Latest Project

Jobblast, is a dynamic recruitment agency app designed to streamline the job search and hiring process for both job seekers and employers. With an intuitive interface, Jobblast connects talent with opportunities by allowing users to create and customize their profiles, browse job listings, and apply with just a few clicks. Employers can easily post job openings, review applications, and communicate with candidates, all within the app.

Latest Project

We developed Highbridge Energy and Tech Limited's eCommerce app to revolutionize the way users shop for solar products and accessories. This user-friendly platform allows customers to browse a wide range of items, place orders seamlessly, and make secure online payments. With integrated delivery tracking, users can monitor their orders in real-time, ensuring a smooth shopping experience from purchase to delivery.

Our Milestones

2024

we continued to innovate with the development of Jobblast, a recruitment agency app and others, also strengthening our commitment to sustainability by introducing eco-friendly practices in our operation.

2023

we focused on scaling our operations and improving customer experience. We introduced advanced customer support features and launched a loyalty program to reward our loyal customers.

2022

we expanded our product offerings and enhanced our eCommerce app with new features, including secure payment options and real-time delivery tracking.

Client Review

"The health insurance app developed for us by GlobalNet ICT has dramatically improved healthcare access for Oyo State residents, GlobalNet ICT is a reliable company, they keep to their words and contract terms – Oyo State Health Insurance Agency (OYSHIA)

OYSHIA

GlobalNet's expertise and reliability in delivering top-notch digital solutions have exceeded our expectations, and we can confidently recommend them to any business looking for dependable and innovative technology services." –
